

Energy Efficiency

Energy efficiency is getting the most out of the energy we use when heating, lighting and using appliances in our homes. As the biggest proportion of energy in the home is used for heating, it is important to keep the heat where it is needed for as long as possible, for example, by installing cavity wall insulation and loft insulation.

Where heat is lost

Using less energy means more money in your pocket.

For more information: www.brysonenergy.org or telephone (freefone) 0800 142 2865

For further information and advice on saving energy and grants that may be available for heating and insulation, please contact:

- **National Energy Action (NEA)** is a national charity which aims to eradicate fuel poverty and campaigns for greater investment in energy efficiency. NEA can advise on energy efficiency and reducing fuel bills and can make referrals to grants for heating and insulation.

Tel: 028 9023 9909. www.nea.org.uk

NEA Northern Ireland, 64-66 Upper Church Lane, Belfast, BT1 4QL

- **Bryson Energy Advice Line** provides advice to householders on saving energy in the home and information on grants for heating and insulation.

Tel: 0800 142 2865. www.brysonenergy.org

Unit 1, Rivers Edge, 13-15 Ravenhill Road, Belfast, BT6 8DN

- **Northern Ireland Housing Executive** manage their own properties and NIHE tenants can speak to their local office to get information on any energy efficiency improvements that are planned for their area. **Tel: 03448 920 900. www.nihe.gov.uk**

NIHE tenants can also call Heatsmart for free, independent heating advice on **freephone 0800 142 2865**.

- **Housing Associations** manage their own properties and are responsible for any maintenance and improvements to them.
